

Move beyond the
standard electronic brief

Create, edit and review hyperlinked ebriefs quickly and easily with Brief-Lynx™

Hyperlinked ebriefs and electronic case filings are increasingly popular, and Brief-Lynx is the only Internet-based application specifically designed to simplify and enhance the production process.

Brief-Lynx ebriefs stand out because citations are easier-to-read and access – your audience won't spend hours searching through cited documents in a brief. Plus, your case will benefit from a tactical advantage and anyone can create ebriefs faster with Brief-Lynx, which will save you money.

Why should you use ebriefs?

Many courts increasingly require or recommend the filing of a hyperlinked ebrief. It's a brief in PDF format that links to electronic copies of all citations, articles, testimony, transcripts and audio and video files (in addition to traditionally or ECF-filed paper or unlinked PDF files). Also, many lawyers find that an ebrief gives them an advantage.

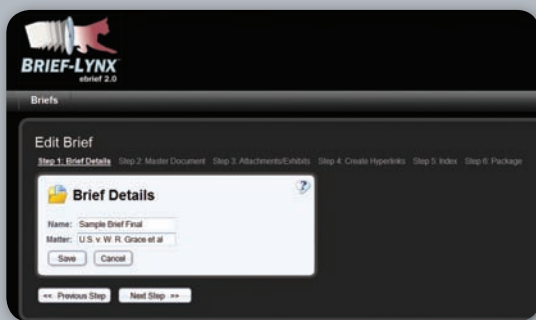

Brief-Lynx ebriefs are stored in a secure online account, which allows multiple individuals to edit and review, anytime and anywhere – even at the 11th hour. Plus, your links are organized in a single window - the Lynx-Index - which makes review a breeze. The end result? A convincing and concise presentation, achieved accurately and efficiently.

Use the *only* online application specifically designed to simplify and enhance the ebrief production process

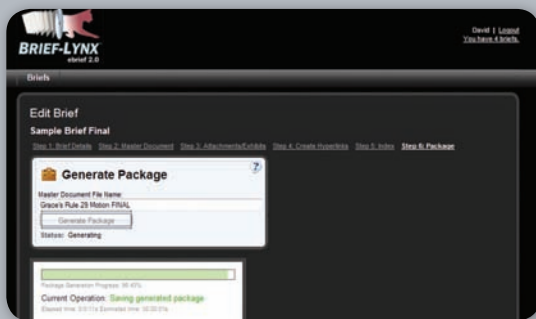

Lynx-Index – all links and destination documents are organized in a single window.

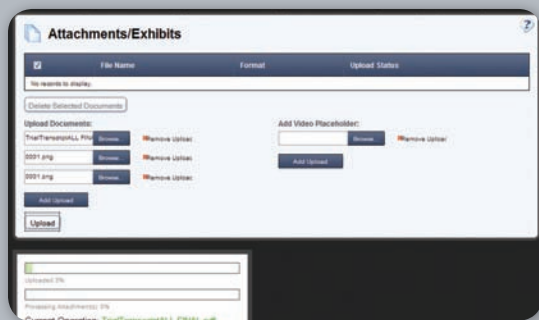

Easy to use – no tedious training or need for Adobe power users. You work right in your web browser from any place, at any time.

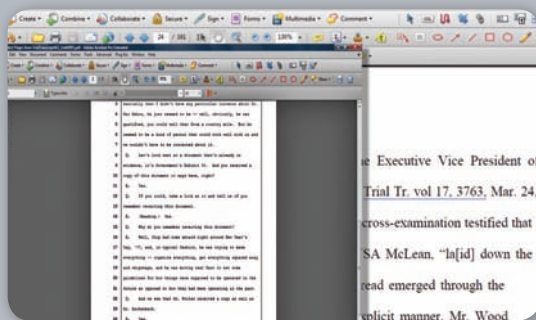

Revision Control – change hyperlinks without losing any work. Plus you can see all the revision versions in one place.

Low cost – enjoy a dramatic increase in production efficiency vs. Acrobat® – there's no need to outsource production.

Flexibility – link to almost any file type: PDFs, graphics, evidence, videos and more.

Judge or Arbitrator Focus – any user can review all of the author's select points easily.
